- 71 - grey green
- 72 - dusty pink
- 73 - grey

Jane and Gordon Martz

Marshall Studios, Inc. has been manufacturing stoneware accessories, lamps, and tile and wood tables for nine years. All of the items are made on a small production scale. The pitchers, vases, tumblers, etc., are cast with slip in plaster drain cast molds, and the flat trays are pressed from plastic clay into plaster forms. Decoration is all done by hand, employing mainly incising, or etching through the glaze to the clay, and majolica, using glaze over a glaze.

The ceramic pieces are designed by Jane and Gordon Martz, who studied ceramic design at Alfred University in New York.

ORDERING

CHANGING GLAZES: Glaze color may be changed by making the second number of an item the number which corresponds to the color desired as shown on our glaze chart. Our glaze chart may be ordered at no charge upon request. These glaze changes may be had on any of the plain pieces shown in this catalog without extra charge.

ORDERING DECORATED TRAYS: Although we cannot use all of our glazes on decorated trays, as on our plain accessories and lamps, they may be ordered in assorted colors and variety is possible in the same design.

EXTRA CHARGES: An extra charge of 10% is sometimes added when the color of a decorated piece is changed, or if special work is involved because of technical reasons in changing glaze color.

SERVICE CHARGE: It is necessary to add a small service charge to orders under \$10.00 to cover the cost of handling and packing.

SHIPPING INFORMATION: Each order is shipped f.o.b. Veedersburg by the most economical means of transportation, according to weight and size. Please specify the carrier desired if you have a preference.

DAMAGE IN SHIPMENT: All of our stoneware is carefully packed when the order leaves our studio and is in perfect condition. If breakage occurs it is necessary for you to file your claim with the carrier to cover the loss.

GLAZE COLORS ARE LISTED ON PAGE 1

ABOUT THE WARE

Stoneware naturally is subdued in color, due to the high temperatures to which the ware is fired. Oxides which would give a bright color at lower temperatures become more earthy and subtle in feeling when fired to cone 9. This explains why most of the glazes in this catalog are in the brown and charcoal range. Because of the strength of cobalt and copper oxides many of the blues and greens shown are quite brilliant, and may be ordered when bright color is needed. We cannot produce bright orange or yellow glazes, however.

Also, though our ware is quite strong and vitreous, we cannot guarantee it when exposed to sharp temperature changes, such as from refrigerator to oven, or when used over direct heat. Its physical properties are similar to any good porcelain.

GLAZE VARIATION: Because our ware is fired in periodic kilns, there will be some variation in glaze color from one firing to another.

DELIVERY: Our standard delivery is approximately four weeks from receipt of your order. However, when items are ordered as shown in this catalog delivery time is lessened, as these pieces do not require special work which increases time of manufacture. Also during some special seasons such as Christmas, our delivery is somewhat slower due to a larger quantity of orders.

7 pc. place setting	20.00	23.50

DINNERWARE FORMS AND PRICES:

J4	cup	3.00	3.50
J5	bread & butter	2.00	2.50
J6	saucer	2.00	2.50
J65	soup bowl	3.00	3.50
J7	salad bowl or fruit bowl	2.50	3.00
J9	luncheon plate	3.00	3.50
J11	dinner plate	4.50	5.00

RECOMMENDED DINNERWARE GLAZES:

We feel the following shiny glazes are much more satisfactory for every day use than our matte glazes. The matte glazes are more difficult to clean and the sound of metal on these matte glazes is sometimes objectionable.

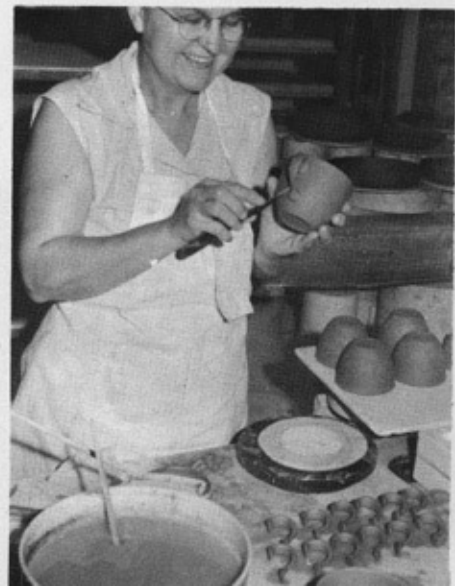

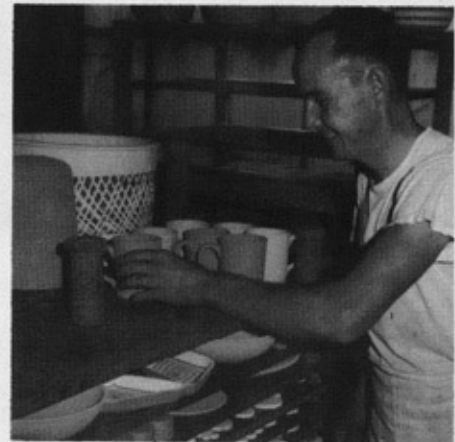

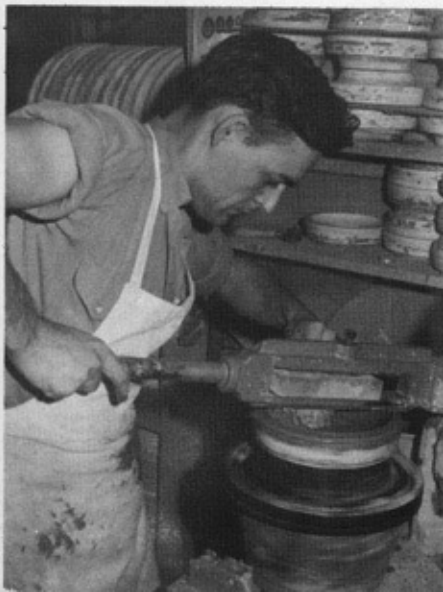

- 14 - clear glaze
- 23 - light grey to white
- 50 - dark brown
- 53 - textured medium brown
- 54 - medium green
- 56 - blue green
- 60 - bright blue
- 62 - bright green
- 65 - black
- 69 - yellow
- 70 - blue
- 71 - pale grey green
- 72 - dusty pink
- 73 - medium grey

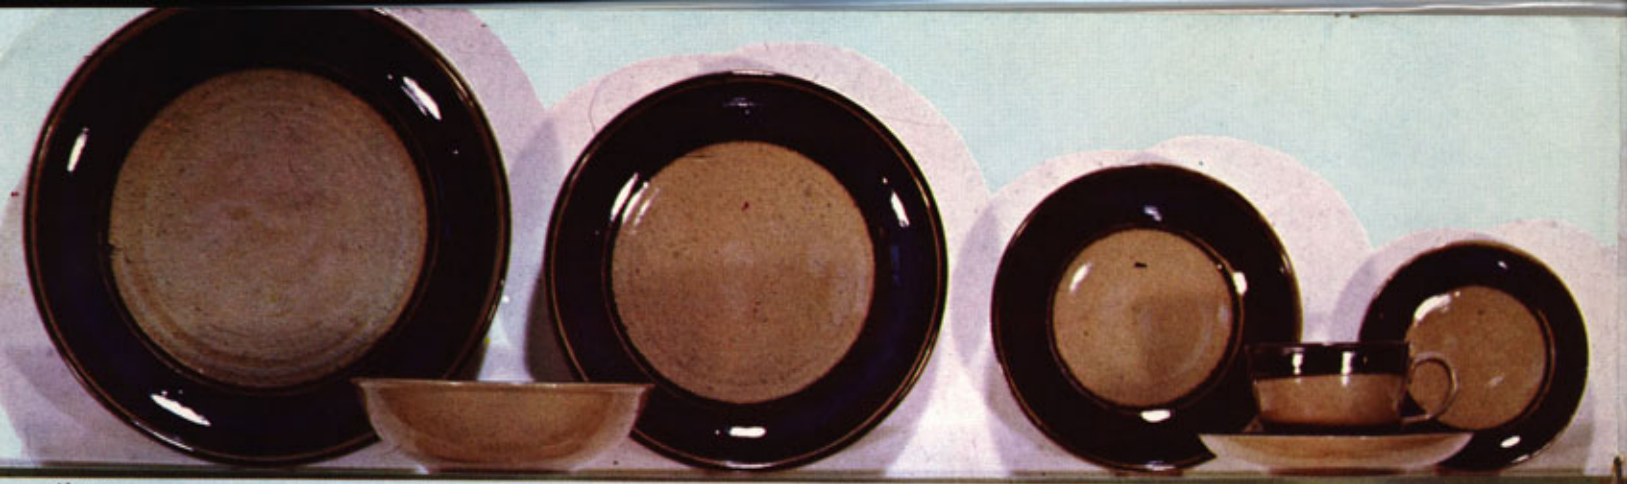

The dinnerware pictured on following pages has been designed to comply with many requests that we have had to manufacture a complete table place setting that could be used together with our stoneware dinnerware accessories.

These plates and cups are not jiggered automatically. They are formed on a hand jigger and the pieces are finished completely by hand on the inside while the clay is wet. This method allows many more inside surface possibilities than when the form is jiggered from the outside, as is usually done.

Of course the following color combinations are only suggestions - colors that we feel have been very attractive with the designs used. These combinations of colors may be changed at your request to fit special color requirements. The list of suggested dinnerware glazes on this page will be helpful if a change is necessary.

On page twelve are pictured six patterns, shown only on the dinner plates, which may be ordered in a complete place setting or any combination of pieces.
