HANDWOVEN PILLOWS

PRICE LIST NO. 24

designed by Jane Marshall Martz

All of the pillow covers are woven with hand shuttles, and the patterns are treadled by foot. Fibers used include linen, wool, rayon, cotton and jute. Some of the covers contain handspun Australian white Merino wool, handspun on our own spinning wheels at the studio.

Many different weave systems are used to create the texture and pattern, from the simplest tabby structure to the more complicated overshot and Summer and Winter patterns.

There is a very broad color range in the pillow grouping, and all of the patterns photographed may be had in any of the four sizes, as shown on the pricing chart. There may be some slight variation in colors due to different dye lots of fiber received from our suppliers.
